10000 Zagreb, Croatia**

#### WHAT IS THE INOVA-YOUTH EXHIBITION?

The largest exhibition of youth innovations in the Republic of Croatia and Central Europe, which regularly gathers all the achievements of young innovators from Zagreb together with guests from all over Croatia and abroad since 2001. INOVA-YOUTH is a program of Zagreb Inventors Association, Faculty of Mechanical Engineering and Naval Architecture Inventors Organization and the Zagreb Associations of Young Innovators with the aim of stimulating the further development of youth innovation in the City of Zagreb with a large exhibition event.

#### GOALS OF THE EXHIBITION

- Gather all the students of Zagreb primary, secondary schools and Universities who express their creative abilities in the curriculum or extracurricular activities in schools, associations of innovators, universities or in their free time through creative work. We expect innovations in technical fields, but also new innovations from all other programs.
- bring together mentors with innovations related to the teaching process or curriculum;
- exhibit the innovations of young people from Zagreb and guests from the Republic of Croatia and abroad to the public: the media regularly publishes a series of reports on INOVA-YOUTH exhibitions;
- choose and reward the best for international promotion of Croatian innovations; young people who will continue the golden streak of Croatian innovators at exhibitions around the world.

#### CATEGORIES AND PRESENTATION OF INNOVATIONS

When filling out the application form, you select only one category from the 4 offered / "primary schools", "secondary schools", "junior thesis", "faculties/universities". The presentation is made in front of a jury that evaluates the work based on a discussion with the author(s) and evaluation of functionality and innovation. Innovations from the field of software are submitted in one of the listed four categories.

**Exhibition Support:**

**CITY OF ZAGREB  
CITY OFFICE  
FOR EDUCATION,  
SPORT AND YOUTH**

**RICH AND ATTRACTIVE REWARDS PROGRAM**

All participants of the Exhibition receive certificates of participation, and the best receive numerous awards:

- gold, silver and bronze medals;
- participation of the best at the 48th Croatian Invention Show INOVA-BE THE ROLE MODEL in Zagreb and the 16th national exhibition of youth innovations in PGŽ County;

The best of the best, the INOVA winner will be announced as  
**YOUNG ZAGREB INNOVATOR OF THE YEAR**  
and get a series of surprise prizes...

**NEW AT THE 24th INOVA-YOUTH exhibition**

**– NEW DATE AND NEW LOCATION**

INOVA-YOUTH continues the tradition of being held at the Faculty of Mechanical Engineering and Naval Architecture (FSB), the place of greatest success, which we all want and look forward to!

With the incomparable support of FSB, this year's edition will be at the current, replacement location, in Tekstilpromet d.d. building, Ulica Grada Gospića 1a.

We chose the new date, Friday instead of Saturday, together with the goal of a significantly larger visit. Four faculties of the University of Zagreb operate at this location (in addition to FSB, there are Architecture, Civil Engineering and Geodesy), so we expect a large number of students to visit.

If you have a problem, let us know so we can solve it together.

**LET'S CELEBRATE THE CREATIVITY OF THE YOUNG PEOPLE IN  
ZAGREB TOGETHER!**

The application form is attached.

**APPLICATION DEADLINE: April 10, 2024.**

**We are expecting you on May 10, 2024.**
